TECHNICAL SKILLS

Programming Languages: Java, Python, C++, SQL

Data Structures & Algorithms: Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, Dynamic Programming

Core Computer Science: Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks

Backend Development: Spring Boot, REST APIs, MVC Architecture, JPA, Hibernate

Web Development: HTML, CSS, JavaScript
AI, Machine Learning & Data Science: Pandas, Scikit-learn, NLTK, TextBlob, OpenCV

Database: MySQL

Tools & Platforms: Git, GitHub, Linux, VS Code, Postman

EDUCATION

Bachelor of Technology – Artificial Intelligence & Data Science

Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 2023 – 2027
Current CGPA: 7.80/10.0

Class XII (CBSE) | Fatima Convent School | 77.80%

Class X (CBSE) | Fatima Convent School | 91.34%

CERTIFICATIONS

Programming Fundamentals Using Python, NumPy & Pandas (Infosys Springboard), Python for Data Science (Infosys), Introduction to HTML (Infosys Springboard), Problem Solving (HackerRank), Introduction to Generative AI Powered by Google Cloud.

SUMMARY

Artificial Intelligence and Data Science undergraduate with hands-on experience in Java, Python, C++, SQL, Full Stack Development, and Machine Learning. Skilled in building web applications, REST APIs, NLP solutions, and recommendation systems. Strong foundation in Data Structures, DBMS, and Software Engineering, with proven problem-solving abilities demonstrated through projects, training, and coding practice.

ACHIEVEMENTS

- Solved 150+ coding challenges across LeetCode and HackerRank.
- Improved execution efficiency of academic applications through code optimization.
- Designed an AI-powered examination monitoring solution using OpenCV.
- Earned recognition during industrial training for commitment and quality of work.

INTERNSHIP EXPERIENCE

Full Stack Development Training

TechnGlobal | Mar 2026 – May 2026

- Completed intensive industry-oriented training in full-stack application development.
- Practiced backend engineering, frontend integration, and API implementation.
- Strengthened software development fundamentals through project-based learning.
- Received a Letter of Recommendation for excellent performance and professional conduct.

PROJECTS

Multi-Tiered Online Examination & Proctoring Portal | Jan 2026 – Mar 2026

- Built a Spring Boot and React.js examination platform with JWT authentication and OpenCV-based proctoring.

AI-Based Sentiment Analysis Tool | Oct 2025 – Dec 2025

- Developed an NLP-based sentiment analysis solution using NLTK and TextBlob.

Movie Recommendation System | Jul 2025 – Sep 2025

- Created a hybrid recommendation engine achieving 85% accuracy using Flask and Pandas.
